

Diana and Coty

Dear expectant parent,

We first want to say how courageous and selfless you are and understand how scary this all must be. We are grateful for you to take the time to learn more about our family and give us the opportunity to expand our family through another adoption.

We can promise any child placed with us will be met with love and acceptance for whoever they grow up to be and taught compassion. We will also teach any child placed with us what a gift and sacrifice adoption is.

Our Story

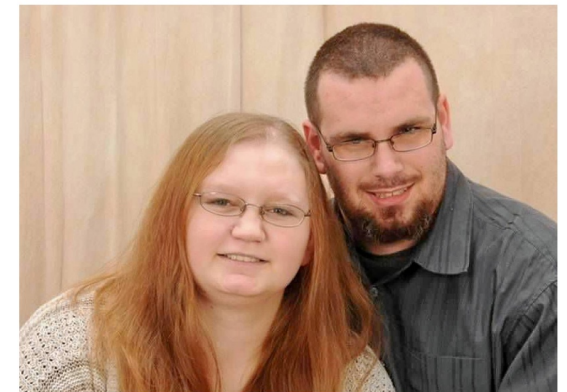

About us:

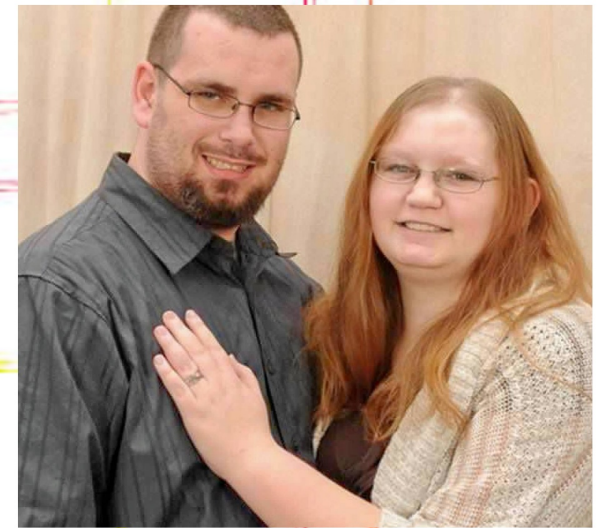

We are Coty and Diana. We Currently Live in Richmond KY. We met in August 2009 when Diana started Cracker Barrell and Coty trained her to serve. We then got married in August 2010. We had a instant connection and have always worked well together.

We have helped raise our nieces and nephews for 7 years as coty sister lived with us with her two infant children from 2013-2020. They still stay the night on a regular basis and they are all very attached to us.

In 2019 we were blessed with foster children that we continue to stay in contact with. Our son was one of those foster children we were blessed with and was able to adopt him in December 2020.

Since adopting our son we love taking him on adventures. We use the weekend to go on trips to local museums, zoos, aquariums, and trying new restaurants.

Adoption and why it is special to us:

Diana always knew she wanted to adopt and foster children and that it would be part of her life. She grew up around several family members who fostered. Diana's parent also adopted one of Diana's siblings that she loved having as part of the family.

Coty as a teenager was part of the foster care system so he has a very unique way to understand adoption.

We have a very supportive family behind us on adopting as we have adopted our son from foster care in December 2020 and we love watching him grow and learn.

life is an
Adventure

Traveling:

Currently we own 6 weeks of stays with Westgate resorts. This allows us to travel into any destination that we wish with little to no charge. Our favorite places to go is Orlando Florida and Gatlinburg TN. We always make sure to travel during those times to create plenty of memories and have family adventures. We will include any child that is in our home on these vacations to ensure they have memories of family vacations. This is something that is important to us as neither of us had many vacations during our childhood unless it was with school.

All about Diana:

Diana has always been a great partner always there to support me personally, professionally, and emotionally.

Written by Coty: My wife is one of the most caring and giving person I know. She is always there to help people when needed and possible. She is also very patient. Since I have known her she has always been great with kids and I know her love for them is something she has had since she was a kid herself.

She excels at connecting with children. Our child (and others) always want to be around her. Whether its playing games, listening to their stories, or just cuddling, it is very hard to

find her without a child nearby. Diana is incredibly patient, understanding, and nurturing.

An example of this would be when our son threw his wrapper from food down on the floor and when asked to throw it away he initially refused and she turned it into a game of having him skip it to the garbage can. She was also know to play one of our foster children's favorite card game of UNO as she could get the child to open up and talk about stuff with her during that time.

She always tried to have one on one time with each of our nieces and nephews rather it be breakfast dates, taking them on trips with just them, watching a movie together, playing card games. I know she will be doing the same once we have more than one child.

Diana makes our home, family, and daily activities come alive. She enjoys planning amazing, birthday themed parties so the child feels extra special. She decorates for various holidays that make our home feel warm and creates excitement throughout the year. she especially loves Christmas. There is so much excitement in the home from her during that time she sets up trains and Christmas villages through the house.

I could go on and on about Diana but she amazes me in so many ways especially as a mother.

Love

All about Coty:

Coty is the love of my life. I knew from the moment I met him I would end of marrying him.

He is dependable, gracious, honest, and silly. He keeps the laughter in our home going. He is always playing around or Joking. He puts on a tough outer shell but is the most caring person I have ever met.

He is a wonderful father to our Son. He never fails to show up to tee ball games, go outside to play with him, play cars with him.

He is heavily involved in our sons life and it allows him to connect with him and other children we are around. He has taught all of the kids in our life a secret handshake. He also assist me with putting him to sleep, fixing dinner, taking him to doctor appointments, etc. He strives to be the father that he never had and any child and absolutely succeeds at that.

Along with duties in our home he also works IT from home. This allows him flexibility to be there consistently for our son and future children.

Our son literally can not handle if he does not have both of us as he is bonded with us equally.

Coty is an amazing father and partner and always puts us first.

LOVE

Meet Brayden:

Brayden was placed with us in foster care from the moment he was born. Diana was actually able to be in the room when he was born as his biological mother was our foster child as well. He was officially adopted in December 2020!!

Since he has been born he has been the highlight of our lives. He is one of the sweetest little boys you will ever meet. He is excited to become a big brother. He always gets excited to have other kids over to play with.

He is constantly going around telling the people around him that he loves them as he is told daily that he is loved and how proud of him we are.

His favorite activities are going to the park, traveling, playing cars, watching Ms. Rachel, seeing monster trucks perform and cuddling with mommy and daddy.

Where we live:

We live in Richmond KY in a new construction.

We have a 3 bedroom, 2 bath house with an attached garage.

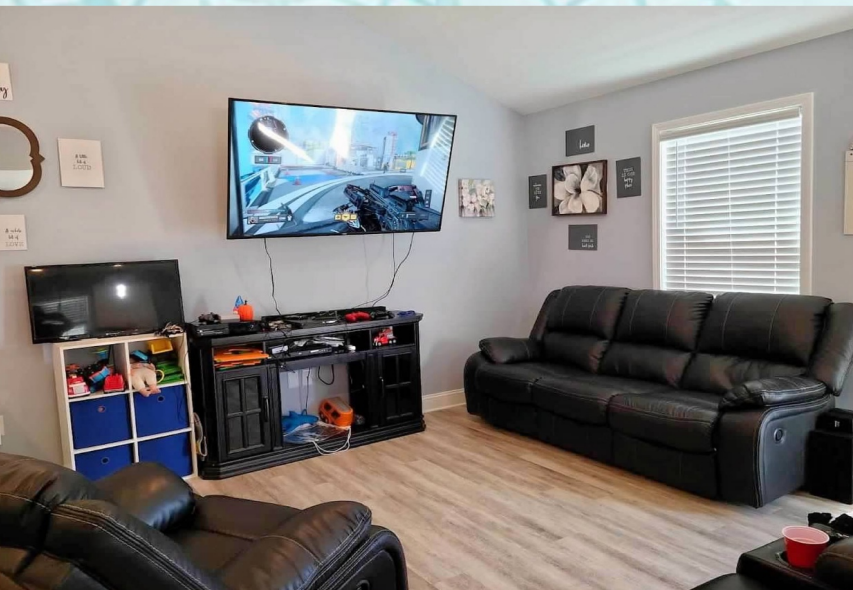

Our subdivision community is in a secluded rural area. One great thing about our community is that we have regular celebrations such as fourth of July with out neighbors and there are plenty of children in the subdivision for play dates and future class mates.

Currently Brayden attends daycare with a stellar reputation.

The Madison County school system has amazing reviews and schools that any child in our home will attend. We moved into the area just for the school system as education is a top priority to us. There is also several affordable private schools in the area as well if we ever decide that we do not want to go the public school route.

In the area of Richmond we also have several area attractions such as paradise cove (water park), Richmond battlefield, White hall historic site, lake reba.

there is also community ran sports such as soccer, baseball/softball, basketball.

Our Family:

We both grew up in Williamsburg and Corbin Kentucky. We come from small towns where everyone is close and family is the most important thing.

Diana has 9 siblings that she is close with and enjoys seeing when the opportunity allows. She is also close with her mom and speaks with her on a regular basis. She also visits her mammaw on her dads side on a regular basis that is still living.

Coty also has 9 siblings that he is close with and visits on a regular basis. He was raised by his mammaw and pappaw with his Mom living close by during his childhood. We visit on a regular basis.

We always make sure that celebrate holidays and get together as much as possible with both sides of the family.

Any child of ours will be blessed with many aunts and uncles and they all spoil them when given the opportunity. They are all excited to welcome another niece or nephew into the family.

Both sides of the family is a huge support system for us.

Our Parenting Promises:

- Provide opportunities for education, adventure, creativity, and wonder
- Help develop their unique talents and interests
- Laugh with life's joys and persevere through its challenges
- Teach them to be honest, generous, kind, self-respecting, and courageous

THANK
you

We are so happy you chose to read our profile
and are in awe of how courageous you are to
choose this path for you and your child.

We look forward to future communication with you and a lifetime
of openness to give your child the best well-rounded life
they can have. We hope to talk to you soon!
